

Ducted Vacuum Specification Sheet

Valet's heavy-duty central ducted vacuum with separate motor and dual option filtration housing system

V350S

With an impressive 4 HP and 1020 airwatts, the Valet V350S offers a choice of a bag or bagless dirt filtration and collection system.

The unique flexibility of the dual canister system covers a wide range of domestic and commercial applications. The split system also allows you to position the motor in a separate area to the collection canister.

Valets V350S twin system matches optimum vacuum power with maximum versatility.
